## COMPOSITION

|              |                    |
|--------------|--------------------|
| Product type | Mix of 2 varieties |
| Variety 1    | 55% (Dormancy 3 )  |
| Variety 2    | 45% (Dormancy 3 )  |

## CHARACTERISTICS

|                  |                     |
|------------------|---------------------|
| Main use         | Silage Hay Wrapping |
| Dehydration      | Suitable            |
| Winter hardiness | Very hardy          |
| Persistency      | 3-6 Years           |

## DISEASE TOLERANCE

|              |   |
|--------------|---|
| Leaf spot    | 7 |
| Verticillium | 7 |
| Anthraxnose  | 7 |
| Nematodes    | 8 |

1-3 sensitive – poor | 4-6 medium – good | 7-9 tolerant – excellent

## AGRONOMY

|                    |   |
|--------------------|---|
| Vigor after sowing | 8 |
| Standability       | 8 |

## YIELD & QUALITY

|                       |   |
|-----------------------|---|
| Yield potential       | 8 |
| Protein               | 8 |
| Digestibility         | 9 |
| All year productivity | 7 |
| Spring productivity   | 9 |
| Summer productivity   | 6 |
| Autumn productivity   | 7 |

## CULTIVATION

|             |             |
|-------------|-------------|
| Sowing rate | 20-25 kg/ha |
|-------------|-------------|

MAS ALFA DUO 3 is a unique association of 2 medicago varia varieties, a cross between medicago sativa and medicago falcata.
